### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-15 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's prior art admission, Figures 1-5.

Regarding claims 1-15, Figures 1-5 of applicant's admitted prior art discloses all the features of the instant invention. For instance, Figure 3 shows a low-surface chassis (20), and a slide chassis (30).

### ***Response to Arguments***

3. Applicant's arguments filed 8/15/07 have been fully considered but they are not persuasive.

In considering applicant's argument that Figs. 1-5 fail to at least disclose a motor part that is mounted to a low-surface chassis, and a back-and-forth motion member that moves the motor part and the slide chassis back and forth in response to a rotational force of the motor part...that "Applicant's prior art submission, Figs 1-5 fail to disclose each and every feature of Applicant's invention, the examiner disagrees. As shown in Figures 3 and 4, the admitted prior art has a motor part mounted to the low-surface chassis (21, 50), and a back-and-forth motion member (60). These features clearly meet the claimed limitations.

In considering applicant's argument that the admitted prior art does not specify the reinforcing bracket that is mounted on the slide chassis as claimed, the examiner disagrees. In Figure 3, the bar 37 is functioned as a reinforcing bracket because it stiffing the structure of the slide chassis.

It should be noted that by relocating the printed circuit board 11 of the admitted prior art to somewhere else, there is basically no difference between the admitted prior art and claimed invention. Since applicant fails to overcome the prior art, the rejection still stands.

#### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Lee whose telephone number 571-272-7349. The examiner can normally be reached on Monday through Thursday from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David L. Ometz, can be reached on 571-272-7593. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
